I am George W. Bush and you best not cross my path  
Because now I have the backing and you're going to  
feel my wrath  
The Christian right adore me because I swore to carry  
out god's will  
Can you believe that they're my strongest support  
considering how I love to kill?  
They can live with murder on death row but not Roe vs.  
Wade  
So I promised them if they got me elected some  
changes would be made  
So now those irresponsible teenagers will be forced to  
have a kid  
It makes no difference to me I don't sleep around like  
Clinton did  
Are we now to regress back to the Reagan years, the  
ruling elite's wet dream?  
Where capital punishment is viewed as civilized but art  
and music as obscene  
Claiming that they're for less government rule in  
livelihood as they set the stage  
To tip the scales in the companies favor, freeze the  
minimum wage  
Fight to reinstate prayer in public schools and make the  
christians proud  
Appoint Supreme Court justices who will insure that  
abortion is disallowed  
Cutting all of the medical coverage for those inflicted  
with A.I.D.S.  
And push the gays back in the closet in hopes that their  
movement fades  
I can't relate to homosexuals so I'll keep same sex  
marriages banned  
In fact the only dick I like is my second in command  
You may remember Mr. Cheeney he was one of my  
daddy's peers  
And he'll really be an asset if he can live for four more  
years  
He's a veteran of the trenches so I put him on my team  
Because it's time to bring back all the tactics of the  
Reagan-Bush regime  
With Jeb's help I stole the election and brought the

liberal era to an end  
And although the left-wing will not like it I'm going to  
set things right again  
They initiate absurdity that to them makes perfect  
sense  
Cut out every social program and simultaneously build  
up our defense  
That they'll mostly use for internal conflict, like when  
the activists 'attack'  
And the provoked protectors of the law have no choice  
but to fight back  
When assessing what the problem is their lack of  
judgment never fails  
And the only answer that they have is to build more  
jails  
Every time the standard of living drops and a rise in  
crime ensues  
They never attribute it to survival but a lack of family  
values  
I'm here to restore dignity to the Whitehouse once  
again  
And I can't do that in reality so I'll guess I'll just pretend  
It's no big shock that I'll starve the poor and cater to  
those with wealth  
In fact the only thing that may surprise you is that I  
manage to dress myself  
I am definitely not the brightest man my brain is pretty  
lame  
The only reason I made it this far is that I have my  
daddy's name  
But as long as I'm your president you better learn to  
pray  
It could only happen in America , god bless the USA
