"Whispers In The Dawn"

It was a winter when we met
it was the day without sunset
I stared your eyes so full of shine
Eyes void of care those just like mine

I felt so high and love took place
I saw your passion through your gaze
Day without you is a lifetime maybe two
Last words you said was I love you

Chorus
Where have you gone
I can hear
your whispers in the dawn

Where have you gone
Can you hear
my whispers in the dawn

I don't wanna fight no more
There's nothing fighting for
I'll join you soon now anyday
pain is so deep when you're away

Chorus
