Yeah, this is just a story about love
About life and about the true essence of people

Boy meets girl, girl meets boy
Her name Dana, his name Troy
When they locked eyes, that first night
They both knew, love at first sight
Started hangin out, started getting tight
Everything about it, just felt so right
Day by day, they grew close

They felt somethin, more than most
People do in their lifetime, his homies say he left his
right mind
Cause Troy used to run the streets, but now he's with
her in the night time
He dont really care what they think, cause he know that
this is somethin real
Got him thinkin Dana is the one, and he love the way
she make him feel
So one day, he left home, bought a ring, took a knee
Looked her in the eyes, said "baby do you wanna
spend your life with me?"
She cried, said yes, called her mamma, bought a dress
He wanna do it big, so he say, the wedding day's 10
months away

8 months in, Troy gets a call

Dana's been in an accident, she aint doing good at all
His heart dropped, so did the phone
Flashbacks runnin through his head, thinkin is my baby
gone
Picked the phone back up, heard the doc say that she's
alive
He thank god, tears runnin down his eyes
Jumped in his car, sped down to the ER thats when
The doc said "I got bad news, she'll never walk again"

She broke down, he did too
Then he said "no matter what girl we'll make it
through"

Shes gonna live the rest of her life in a wheel chair he
dont care
He aint goin no where, swears he'll be right there
Some people swear he's crazy, said they would've
been ghost
He said "how could i leave her, right when she needs
me the most"
He said "i'll never leave your side baby girl, your my
world"
I still feel the same way i did then, Boy Meets Girl

Then she cried, and she said "us"
He said "I love you", she said "I love you too"
It's dope right,
Bei Maejor, ThrowBack
Ya'll could smile now
