( Intro )

I need you to know, I need you to know  
I need you to know yeah, I do it for you , for you

( Verse 1: )

I never listen when they say  
The more things seem to change the more they stay  
the same  
Cause' now it seems the only difference is the pain  
Cause' we don't even kick it no more

It's like I'm lost off in a maze  
You use to be my shawty  
Now you act like you don't know me  
Can't beleive that you just gon' walk out the door

( Chorus )

You see I told that girl you were my world  
You see I know you could feel just like before  
If you only knew  
That everything I do, I do it for you

( Well I use to but now it's kinda' hard cause'  
you don't answer the phone )

( Verse 2: )

I don't know whats going on  
You use to be my only  
Now you wana' leave me lonely  
I don't know how you can see that I adore you

( everybody else can )

Even though I'll be okay, you know them girls love me  
I still think it's wrong how you treat me so ugly  
Like you don't even care that I will give up everything  
for you

( Chorus )

You see I told you that girl you were my world  
You see I know you could feel just like before  
If you only knew  
That everything I do, I do it for you

For you, For you, For you . .

(Verse 3: )

Whatever happened to our life long arrangements  
Wintertime engagements, summertime weddings  
We'll never know where they buque went  
So what you doin' out, it's more than foul  
It's rather frangrent, cause' I was given you my all  
& You was just complainin'  
But If you wit somebody, you should trust em'  
You'll never get the time to love somebody, If you  
judge em'  
& I never wana' be that guy you blame, but I was him  
& Now you still my fam, but not close, we like cousins  
So now I listen closely when you mad  
Cause' thats when the truth comes out  
& You say such crazy things, I don't know what thats  
about  
Okay, I know this aint' the time & you probly should go  
But before you leave, somethin' that you probly shoud  
know is that

That everything I do, I do it for you,  
For you, For you, For you . .

So lmean, I don't know but, nawh I don't regret it  
You shouldn't never regret something that made you  
smile  
It's just, i don't know
