tonight i've got a feeling deep inside,  
i feel like love is coming out, girl, girl!  
i feel it's about time that i found out exactly what is all  
about,  
yeah, yeah!

bridge:

o lately everything's been crazy in this world,  
i don't wanna be another lonely girl, yeah!  
i think it's time i that i let down my guard  
and you look like just another lonely boy,  
maybe this should we be together ... right now!  
just take my love and don't you dare say no!

chorus:

when i'm screaming out, yeah  
tomorrow we might remember,  
just what we do tonight,  
i'll let you know, that we don't have forever to live our  
lives!  
yeah, so let's embrace the moment screaming out  
yeah!  
i hope you know, that we don't have forever to live our  
life, yeah!  
so why deciding i'm a fall in love tonight?  
yeah, yeah!

baby this is not an one a night thing,  
...talking about, yeah, yeah!  
but rumors say that i should listen out when our love is  
calling out!  
yeah, yeah!  
so lately all these things have been crazy in this world,  
i don't wanna be another lonely girl

...all tonight,  
i know it sounds fast, but baby let's crash,  
tonight i wanna live your world,  
cause the end is coming closer, closer!  
yeah!  
so baby let's go, and pull me close and don't you dare  
say no!

chorus:

when i'm screaming out, yeah
