Chorus:

I'm tryin to take it slow
but look what you got on
look what you got on
just looking like you want
Looking like you want want
Looking like you want want
wanna let me see your freak side
bottles to the dawn got me in my zone
look what you got on
is looking like you want want
Looking like you want want
Looking like you want want
wanna let me see your freak side

..like a freak from the west coast
she put it on me then she head it on the best smoke
my New York shawty told me that's a damn lock
my Jersey girl said my nigga that's a damn ..
she said down south girl don't know how to ..
say once I get up on the ..I don't know how to act
my man west girl told me that's a damn..
my destroy girl don't tell me that's a damn lock
I told em I ain't from ..I'm just looking for a little
something
what's the place is something
after all the girls ..across the derby you
I'm tryin to take it all flip my hand
and cross me not to ..
try not to judge me ..with promise to give you all
really work it got your..it's all on the wall
you say you love it when I thug it
the matter is involved
I said well I dream just about to going me

[Chorus:]

Nothing like a freak that's from on top
she say she always follow you probably jump shot
A ..team that's told me it's damn hot
too many kind that's a damn ..

she say she's nothing like a freak from the UK
but she say she never understand when I used light
I heard they do it right in Canada is that real
my team died girl look at me and..
you see my girl is Mercedes I love the way you play me
you came in it though and damn it she's famous
look like ..I said god damn it is that really
be the co star when I'm so hot
sent it back like postcards
sent it back like..no panties on the long dress
baby chill they home yet
nuh you ain't wrong yet
I'll show you what wrong is
that you know what trouble is
..we're stumbling ..we're bubbling

[Chorus:]
