i am in the back of the club, just me and you girl
i know its fun but, but you cant take it no longer
so we're lookin for a little love in all the wrong places
and we're both a little wasted, been drinkin nuvo all
night
i dont know, i dont know, how i let it get this far
out of control, out of control, slow dancing in the dark
under the strobe lights, there we are
runnin around town with somebody else, girl
see i know its hard, we both know maybe me and you
should
slow down, coz girl your just so sexi,
everything that you do is makin me want you,
right now see i just came here to chill but,
now im with this dangerous girl
getting kisses in the V.I.P
climbing all on top of you, and you on top of me
we're doing things that i just cant believe
one hands holding your face, other hands holding your
waist
girl, this cant be right, what are we doing?
we dont care if somebody see's
what are we doing we dont care coz we both recieve
kisses in the V.I.P
when it feels this right,
it must be wrong
listen, we cant go on
you see its like, im sorry we just cant
hold on stop, stop, stop
you gon get lipstick on my shirt
everything feels (upside down)
you know like my whole world feels (upside down)
yehh listen
slow down, lets just take it step by step,
think it over

lets not rush into this (now)
we're blinded by our passion,
like we dont know what happened
because getting kisses in the V.I.P
climbing all on top of you, and you on top of me
we're doing things that i just cant believe

one hands holding your face, other hands holding your
waist
