Party at the crib, party at the crib
I'm gonna chill, bring your friends
Hey lil babe, party at the crib
I'm gonna chill, bring your friends

Play your body lean, party of the year
Send it on the chair, hands in the air
Everybody tipsy, bottles movin' slow
Niggas rollin' up, girls on the flow
Patio poppin', bedrooms full
Servin' up the shots, need some Redbull
Girl is that your girlfriend? I don't need your home girl
I mean like do ya ever get it on girl?

Let's do it tonight, let's make this a moment
Let's go in the back, jump in the Jacuzzi
Let's do it tonight, let's make this a movie
Let's go in the back, jump in the Jacuzzi

Party at the crib, party at the crib
I'm gonna chill, bring your friends
Hey lil babe, party at the crib
I'm gonna chill, bring your friends

Party at the crib, party at the crib
I'm gonna chill, bring your friends
Hey lil babe, party at the crib
I'm gonna chill, bring your friends

Welcome to my crib, my casa, su casa
Go on what you feel, do it like a rasta
Listenin' to Marley, damn it this is oldschool
Nigga beat it, hold up, we don't know you
Rich niggas bought it, big money got it
House big as dorms, feels like college
Looks like it's your birthday, I got you a gift
Open her brazier, hands on my dick
She said:

Let's do it tonight, let's make this a moment
Let's go in the back, girl you know I'm on it
Let's do it tonight, let's make this a moment

Let's go in the back, girl you know I'm on it

Party at the crib, party at the crib
I'm gonna chill, bring your friends
Hey lil babe, party at the crib
I'm gonna chill, bring your friends

Party at the crib, party at the crib
I'm gonna chill, bring your friends
Hey lil babe, party at the crib
I'm gonna chill, bring your friends

Party at the spizzy, everybody slizzy
Chandelier blizzy and the whole room dizzy
Couple black girls, couple mommies, couple waiters
Niggas talk big? Keep sendin' up to Biggie
Chicks see the mansion they askin' who is he
This nigga here probly worth a couple million
Now it's four floors, you could see the whole city
When this Bieber check, come brother have a fifth
flizzy
Isn't this ridiculous, chillin' in her vikies
We came in my lizzi, she came out sticky
Strength I'm Achilles, I hang with some killies but hang
as a Billy

Party at the crib, party at the crib
I'm gonna chill, bring your friends
Hey lil babe, party at the crib
I'm gonna chill, bring your friends

Party at the crib, party at the crib
I'm gonna chill, bring your friends
Hey lil babe, party at the crib
I'm gonna chill, bring your friends
