(Diggy)  
Uhh yeah, uh uh uh uh yeah...  
But girl, I gotta let you know that...

(Bei Major)  
I know we're apart but  
you still got my heart and...  
Do you ever, think about me?  
No I don't deserve this  
What we had was perfect  
That I'm always, Thinking bout you.

(Diggy Verse 1)  
Hey Ms. Anonymous  
Lately I've been reminiscing  
On all our kisses and what we had  
I'm kind of missing, it got me trippin'  
'Cause everything just been so different and  
Every time I'm in the heights, It got a nigga thinkin'  
What if she better off without me just runnin' abroad  
that she got a new man or just waiting up on my calls  
can't figure it out but i know I gave you my all  
funny how you took it for granted and then just called it  
off  
the jewelry , the flowers , them late night hours  
when i would confess the way I felt told you  
I thought the world was ours  
but i guess i was mistaken  
because when i was in Vegas,  
I got a call when you were saying that you couldn't take  
it  
Yeah she said it was just too much  
Girl what you think this was a crush?  
Na, I wasn't even in a rush  
But the way you had me feelin'  
I thought you wanted us

(Bei Major)  
I know we're apart but  
you still got my heart and...  
Do you ever, think about me?

No I don't deserve this  
What we had was perfect  
That I'm always, Thinking bout you.

(Diggy Verse 2)

Everything seemed so perfect, almost like a dream  
I guess a nightmare in disguise is all that you can see  
But through the eyes of everyone around as well as me  
We knew that our chemistry incredibly made us  
complete  
So when it went down i was at a lost for words  
I couldn't take it everything that i just heard  
And anything that happened between us was now a  
blur  
Cause only last week we were good then that occurred  
So unexpected, your behavior didn't reflect it  
Felt disconnected something between us intersected  
All the affection gone, what happened to the blessing  
We had together for so long, you and I perfected  
I bet to you it didn't mean a lot  
I mean I know you said it did, but right on the spot  
You went and ban me from your life like a boycott  
Well just imagine how much hurt this boy got

(Bei Major)

I know we're apart but  
you still got my heart and...  
Do you ever, think about me?  
No I don't deserve this  
What we had was perfect  
That I'm always , Thinking bout you.

(Diggy last verse)

Late night just putting up a fight  
With my feelings when I know it ain't right  
Ain't never had this much strife in my life  
But baby I can't stop  
(x2)  
Thinking bout you
