People in the church, if you feel these words  
Raise a hand if you never got your feelings hurt  
Well it's no surprise, there's not a hand in sight  
Don't ya see, we all need a little work sometimes

So can we just rewind for a minute  
'Cause you know we all could use a second pass  
Don't matter if you lose or you win it  
'Cause all this mess you're in won't last so

### CHORUS

Hold on ain't no need to worry 'bout today  
Just let the music play  
Hold on life is like a song that never fades  
So let the music play

Just let the music play  
Let the music play

Now insecurity, negativity  
Got your head hanging down when it shouldn't be  
Ya gotta realign, it's just a frame of mind  
'Cause in the end everything is gonna work out fine

So can we just rewind for a minute  
'Cause you know we all could use a second pass  
Don't matter if you lose or you win it  
'Cause all this mess you're in won't last so

### CHORUS

Hold on, hold on  
Come on let the music play  
Just let the music play

### CHORUS
