(X2)

The jungle, where danger happens.
The jungle, I'll take you captive.

Come take a ride with this wild thing, yeah.
I'm with some guys for this wild stuff party
I'm tryna take you where my heart is babe.
Not like them other journies, so far from ordinary.
I could lure you in, I'm so clever with it.
There's really nowhere to run so you can just forget it.
I set a trap and ooh, look how I caught you in it.
I'm an animal, ani-ani-ani.

You're coming with me boy, no need to resist.
Won't be released 'til I'm good and finished.
Can't let you leave now,
So whatever, whatever just won't work.
I'm holding you captive (You can't be released)
Captive, holding you captive
(I won't let you go)
Holding you captive, you captive (You leave)
Holding you captive, captive (The answer is now)

The jungle, where danger happens.
The jungle, I'll take you captive.

Now that I got your full attention.
I think it's time you learned your lesson.
Locking you up and throwing away the key.
And boy you can forget it cause you belong to me
(Yeah yeah)
I could lure you in, I'm so clever with it.
There's really nowhere to run so you can just forget it.
I set a trap and ooh, look how I caught you in it.

I'm an animal, ani-ani-ani.

You're coming with me boy, no need to resist.
Won't be released 'til I'm good and finished.

Can't let you leave now,
So whatever, whatever just won't work.
I'm holding you captive (You can't be released)
Captive, holding you captive
(I won't let you go)
Holding you captive, you captive (You leave)
Holding you captive, captive (The answer is now)

Go Pussycat, go Pussycat Dolls.
Go Pussycat, go Pussycat Dolls.

I could lure you in, I'm so clever with it.
There's really nowhere to run so you can just forget it.
