Eh echo.

You did it to yourself,  
Now your all by yourself.  
Acting like you hate me,  
I left because you make me.

You played me to the left,  
Now there's nobody left.  
To hear or complain to,  
And I'm gone.

And now all you hear is your own  
Eh echo. eh eh echo.  
And I'm gone and your all alone.  
Can't you hear the eh echo.  
Eh eh echo. no one to hear you,  
There's nobody near you.

It started okay,  
But who was to know.  
The love that is lost,  
Cannot be let go.

You say it's my fault,  
Okay then now go.  
It's better to know,  
Why there's nobody to argue with.  
Cause I'm not home,  
Don't care who your with.  
Don't call my phone,  
Or did you forget.  
You know your wrong,  
I'm gone and your all alone.

Hearing your own damn eh echo eh eh echo.  
I'm gone and your all alone.  
Can't you hear the eh echo eh eh echo.  
No one to hear you, there's nobody near you.

Disgusted with trust, I just no one no more.  
Just went with the flow, put myself on the floor.

When you went away, all my pain wouldn't stray.  
Like it's a new day.

Now I have no one to argue with,  
Cause I'm not home.  
Don't care who your with.  
Don't call my phone,  
Or did you forget.  
You know your wrong,  
I'm gone and your all alone.

Hearing your own damn eh echo eh eh echo.  
No one is near you, no one can hear you.  
It's your own damn eh echo eh eh echo.  
No one to hear you, there's nobody near you.

All night long, I thought to myself.  
Why would I stay with you.  
Because... you were the one to...

To argue with.  
Cause I'm not home,  
Don't care who your with.  
Don't call my phone,  
Or did you forget.  
You know your wrong,  
I'm gone and your all alone.

Hearing your own damn eh echo eh eh echo.  
I hope you get along.  
No one is near you, no one to hear you.  
It's just your own damn eh echo eh eh echo.

To argue with.  
Cause I'm not home,  
Don't care who your with.  
Don't call my phone,  
Or did you forget.  
You know your wrong,  
I'm gone.
