(Feat. Dr. Dre)

You don't see me
The same no more
It's hard
To see the light
Through closing doors
Don't treat me like
Like I'm invisible
You talk with me
It's not the usual
We scream, we fight
Saying things
That we both regret
And that's not right
That you could
Just forget me
Like that
You've never tried
Always taking
The easy route
Always taking
The easy route
Never wanting
To work it out

You want to be free
You want to leave me
I can't believe
'Cause without you
Baby
I'm incomplete

[Chorus]
Am I erased
Just a segment
Of your imagination
I'm feeling replaced
Like a faded picture
Where you
Can't see my face

Scratched out
Erased
[Erased Feat. Dre Lyrics On]
In memory
Of what we used
To call love
I reminisce
What used to be us
Remember when
When I was
The most important
To you
But now I'm a ghost
The trust has died
There's no way
We can bring it back
We live a lie
No bars
No strings attached
Is this alright?
A part of you
Just wants me back
All of me
Just wants you back

You want to be free
You want to leave me
I can't believe

[Chorus x2]

Can anybody see me
See me now?
I'm erased
From the crowd
So cold
And I don't know how

[Chorus]
