It's you and me moving
At the speed of light into eternity yea,
Tonight is the night to join me in the middle of ecstasy.
Feel the melody in the rhythm of the music around you,
around you
I'ma take you there,
I'ma take you there,

So don't be scared
I'm right here baby
We can go anywhere, go anywhere
But first it's your chance,
Take my hand come with me

It's like I've waited my whole life for this one night
It's gonna be me you and the dance floor
'cause we've only got one night
Double your pleasure
Double your fun and dance
Forever (ever, ever)
Forever (ever, ever)
Forever (ever, ever)
Forever (ever, ever)
Forever (ever, ever)
Forever (ever, ever)
Forever on the dance floor

It's a long way down,
We're so high off the ground,
Sending for an angel to bring me your heart
Girl, where did you come from?
Got me so undone,
Gazing in your eyes got me singing what a beautiful
lady
No "if"s, "and"s or "maybe"s
I'm releasing my heart and it's feeling amazing
There's no one else that matters
you love me and I won't let you fall girl
Let you fall girl oh

Lupe!
It's like infinity
We're already at where we finna be
Meaning let's make our hopes our memories
Happily ever after endlessly
You the president of Me and You Dndustries
So its drop love ink on our enemies
Recycle all their negative industries
Then build Shake Em Haters Off Industries
Trust, God willing, they could be like us
Out of our minds, in love, you know thus
But, until then, let's keep it on the hush
Cause they comin for our heads like brush cut
I interrupt the path how its going down
On second thought, let's keep it on the loud
If they don't know then, then they can know now
They don't know the way to do it, then we can show em
how
