(Verse 1)

Baby close your eyes and just
Take my hand and put your trust
In my heart I'll show you things you never seen before
Girl the world is full of hearts
But they never been this far
And galaxies calling on you and me
Just for one night girl, that's right

(Bridge)

Girl the world is full of hearts
But their never been this far!
And the galaxy is calling you and me
Just for night, girl its right
Hold on tight don't let go ?
If you don't take a chance
you'll never know!
Moving faster now, travelling at the speed of light
At the speed a sound

(Chorus)

Go away ohhh oo
Well be riding on the stars tonight
Go away ohh oo
Girl we going to get lost tonight
Go, go, go, go with me
Go, go, go, go with me
(Don't you wanna go to the moon with
meeee)
Go, go, go, go with me
Go, go, go, go with me
Ooo girl I know you wanna go riding on the stars
tonight

(Verse 2)

I confess my love for you
As we stick a flag up on the moon
Baby I can honestly say
I can stay up here forever in a day!

(Bridge)

Hold on tight don't let go ?
If you don't take a chance

you'll never know!
Moving faster now, travelling at the speed of light
At the speed of sound

(Chorus)

Go away ohhh oo
Well be riding on the stars tonight
Go away ohh oo
Girl we going to get lost tonight
Go, go, go, go with me
Go, go, go, go with me
(Don't you wanna go to the moon with
meeee)
Go, go, go, go with me
Go, go, go, go with me
Ooo girl I know you wanna go riding on the stars
tonight

(Verse 3)

I wanna fly away from hereee
Girl if you every get lonely we can fly away, away
All you gotta do is hold me
We can go today, today

(Chorus)

Go away ohhh oo
Well be riding on the stars tonight
Go away ohh oo
Girl we going to get lost tonight
Go, go, go, go with me
Go, go, go, go with me
(Don't you wanna go to the moon with
meeee)
Go, go, go, go with me
Go, go, go, go with me
Ooo girl I know you wanna go riding on the stars
tonight
