verse 1:

she looked up from the book she was reading
with the prettiest smile
that i ever saw
curly hair down her back
and her skin like cinnamon
brown without a flaw

and then those eyes
made my heart jump in my chest
and she says(hi)
and it hard to catch my breath

i said hey little mama i dont mean to bother
at all my name is chris
and before she could answer i said
(dont say a word) listen to this
i think your fine then she cracked that smile again
lets say goodnight to my homies and your friends
we could dip out

chorus:

dip out alone(and keep it moving)
do something fun(and keep it moving)
talk about life about love thats wassup
and keep it moving (oh)
it dont matter at all(all)
were ever we go(go)oh(oh)
girl just come on and keep it moving

verse 2:

so we exchanged numbers
i told her id be at the crib bout a quater to six
we could go get a bite little lady
or chill at the mall and catch a flick

if thats all right
she said as long as im home by nine
what ever we do is fine
i cant believe

bridge:

i cant believe shes here with me no
(and god only knows) god only knows
how far we could go (i hope this night will go)
i hope this night will go my way
and we can do this every day
and if im cool and take my time
then i might just get a kiss goodnight
we can

chorus:

dip out alone(and keep it moving)
do something fun(and keep it moving)
talk about life about love thats wassup
and keep it moving (oh)
it dont matter at all(all)
were ever we go(go)oh(oh)
girl just come on and keep it moving
