Baby I don't like to
Say goodbye, so this
Is my until next time.

I, I see you.
Cause I don't wanna leave you.
I'll just kiss you one last time,
To leave an imprint on your mind girl,
Just for right now,
Tell me can you hold out.
Remember,
Girl we can be miles apart.
And no matter where you are,
You're always in my heart (ohh).

Chorus:
Baby don't leave,
Let me just stay right here,
Cause I ain't gonna waste your time,
So you don't have to leave my side
(You got me open)
Don't leave,
Baby just stay right here,
Even if the world goes by,
We'll remember our last time
(Together)

I could cry a thousand tears
But that won't keep you here,
You said you was finish with this love
So I said why you giving up on us.
I'll love you forever
I promise,
But you mean forever ain't that long.
So baby don't you go, girl
Girl remember?

So you don't have to leave my side
