I got my keyboard
Symbols all ready
Pull up the strings
And leave the bottom all heavy
Palms all sweaty
This feels like a dream
Little excited, you know what I mean girl
Girl I'm in need for a woman that can play
Knows how to turn it up loud
Anytime of the day
Take my cd and baby press repeat
It ain't no need to speak
Just let it play(play)

Well you got my attention now
I can't let you down
Your lyrics and your sound
Imagine me and you
What we gon do oo(just listen)
But wait before the break down

Lets listen to some love music(love music)
Lay back and just let it spin
This music is your friend
Love music(love music)
Nobody has to know
Lets listen to some love music(love music)
Can't wait to get this party started
I'll hit the switches
Let me remix it
(Sit back)and listen to some love music

Turn my mic up
Can you loop it now
From the rythum of the track
And it ain't gon change
The tempo stays the same
Let it flow through the music now
And I just want to see you smile
Now forget about what it is
So baby take my cd
And baby press repeat

It ain't no need to speak
Just let it play

Well you got my attention now

I can't let you down
Your lyrics and your sound
Imagine me and you
What we gone do(just listen)
But wait before the break down

Lets listen to some love music(love music)
Lay back and just let it spin
This music is your friend
Love music(love music)
Nobody has to know
Lets listen to some love music(love music)
Can't wait to get this party started
I'll hit the switches
Let me remix it
(Sit back)and listen to some love music

No matter what the record is
Anytime it plays girl
My heart skips a beat
I feel it in my soul
I'm about to over load
It's takin control of me
We're the perfect harmony
Lets just keep the speakers blasting
And I wont stop(I wont stop)
Til we burn out together

Lets listen to some love music(love music)
Lay back and just let it spin
This music is your friend
Love music(love music)
Nobody has to know
Lets listen to some love music(love music)
Can't wait to get this party started
I'll hit the switches
Let me remix it
(Sit back)and listen to some love music

Love love music
Love love love music(love music love music)
Love love music
Love love love love music(love music love music)
