Let me start off by saying  
Baby don't go both ways  
She don't mind flirting and playing  
At least that's what she say  
Got off in the spot  
And i'm tripping  
She knows baby girl's first name  
Could it be something i'm missing  
Or am I just part of the game  
Woah woah  
She getting more change than the players  
Woah woah  
She putting fingers up to the haters  
Woah woah  
Way she do it it look so good  
Like I said she don't go both ways  
But this is making me wish she would

My girl like them girls  
It's alright it's okay  
My girl like them girls  
It's alright it's okay  
So I let her let her do her thing  
I even let her make it rain  
My girl like them girls  
She like them girls  
Oh yeah

Didn't know that she liked them girls  
Didn't know she...

Number one fantasy on my list  
I even did it once in my dream  
Ooh that damn Minaj  
Could it really be happening  
Baby how you gon' tease me  
Tucking dollars all between your thighs  
Ooh that girl got it  
You should make an exception tonight

Woah woah  
She getting more change than the players

Woah woah

She putting fingers up to the haters  
Woah woah  
Way she do it it look so good  
Like I said she don't go both ways  
But this is making me wish she would  
Yeah...

My girl like them girls  
It's alright it's okay  
My girl like them girls  
It's alright it's okay  
So I let her let her do her thing  
I even let her make it rain  
My girl like them girls  
She like them girls  
Oh yeah

Didn't know that she liked them girls  
Didn't know she...

She liked the one with the tattooed thighs  
I think they call her Sunshine  
And if she wanna cross the light  
I don't care  
Cos ain't nobody gotta know  
And we can keep it on the low  
And if you wanna take her home  
We can share...

My girl like them girls  
It's alright it's okay  
My girl like them girls  
It's alright it's okay  
So I let her let her do her thing  
I even let her make it rain  
My girl like them girls  
She like them girls  
Oh yeah  
Didn't know that she liked them girls  
Didn't know she...
