

Chris Brown "Not My Fault"

Visit "[Not My Fault](#)" on [MotoLyrics.com](#)

I picked up the paper and the headline reads
it says "single broken hearted in some satin sheets"
and I'm like why, we had a hell of a time

when i first met you i told ya
that you'll be safe
in the midst arguing something
falls to the floor and breaks.
but when you looked down to see
what you dropped
oooo it's your heart

shawty is caught up
from a long night
she's ready to fall but
see if its all right
thats just something that can happen
when you put it down
see she's caught up
that's not my fault right

see the momma called me to release steam
she said my daughter wont eat and she don't sleep
she just cries, cuz your in her mind

when i first met you i told ya
that you'll be safe
in the midst arguing something
falls to the floor and breaks.
but when you looked down to see
what you dropped
oooo it's your heart

shawty is caught up
from a long night
she's ready to fall but
see if its all right
thats just something that can happen
when you put it down
see she's caught up
that's not my fault right
break it down

pharrel:
get down to the floor(fo sho)
feel the beat, get down to the floor(hell yea)

feel the beat,get down to the floor(fo sho)
feel the beat, get down to the floor(hell yea)
feel it all ova ya(yea)
feel it all ova ya(yea)
feel it all ova ya(yea)
feel it all ova ya(yea)

if you just keep it in stride
you should be all right
and if you take what's inside
[?]and then stack with pride[?](instead)
nothing along people are gone
when you call
gurl tell me whyy

when i first met you i told ya
that you'll be safe
in the midst arguing something
falls to the floor and breaks.
but when you looked down to see
what you dropped
oooo it's your heart

shawty is caught up
from a long night
she's ready to fall but
see if its all right
thats just something that can happen
when you put it down
see she's caught up
that's not my fault right

shawty is caught up
from a long night
she's ready to fall but
see if its all right
thats just something that can happen
when you put it down
see she's caught up
that's not my fault right

shawty is
