Wussup with this use
2 kick it on the regular
But since the deal u
Say my life has changed
I remember
When we use 2 argue
And it make no sense
Afterwards
We'd make love again

That was way
Before the videos
Way before
The number 1 singles
On the radio late night
At the studio
When I was just CB
Nobody knew me
But you were still
The same now

Being without you
Is like having nothing
It don't matter
'Bout the money
I spend I
Got a million plus
In my bank account
But it's nothing
Without you
Nothing without you
I ain't been the same
Since you came
In my life
And you're the only 1
To help me get right
And the way
I'm feeling girl
You need 2 kno
Without you
Life is back 2 zero

Baby jus' listen
Girl it's just a job

So don't look
At me different
Looking in your heart
Girl
I kno your committed
And what I told you
Stands true
I've been down for u
Baby

That was way
Before the videos
Way before
The number 1 singles
On the radio late night
At the studio
When I was just CB
Nobody knew me
Girl
You were just the same

Being without you
Is like having nothing
It don't matter
'Bout the money
I spend I
Got a million plus
In my bank account
But it's nothing
Without you
Nothing without you
I ain't been the same
Since you came
In my life
And you're the only 1
That help me get right
And the way
I'm feeling girl
You need 2 kno
Without you
Life is back 2 zero
