i think they know about you,
say they saw,
i think they know,
they think they know,
i think they know about you,
say they saw,
i think they know,
they could they know,

dont let them tell you any different,
yeah yeah yeah,
they dont know about us, they dont know about it,
i owe it all to you
yeah yeah yeah
they dont know about us, they dont know about it,
as much as i messed up, i was giving you my best love,
yeah yeah yeah,
they dont know about us, they dont know about it,
sometimes i wonder what i did to deserve you,
yeah yeah yeah,
they dont know about us, they dont know about it,

they gonna talk about it, gonna talk about it,
gonna try change your mind about it,
gonna tell you things you dont wanna hear but we
good,
dont worry about it,
they talk about it, they talk about it,
just let them know we already got it,
just tell them we gonna work at it.. we good,
dont worry about it,

i think they know about you,
say they saw,
i think they know,
how could they know,
i think they know about you,
say they saw,
i think they know,
how could they know,

dont listen too, how could they know, what people say,
how could they know, they dont know about, how could
they know,
about you and me, how could they know,

and i bet you loved me,
yeah yeah yeah,
they dont know about us, they dont about it,
even i ate my words,
yeah yeah yeah,
they dont know about us, they dont about it,
and i know that its different,
feels like were best friends, were connected,
they dont know about us, they dont know about it,
what did i do too deserve you,
yeah yeah yeah,
they dont know about us, they dont know about it,

they gonna talk about it, gonna talk about it,
gonna try change your mind about it,
gonna tell you things you dont wanna hear but we
good,
dont worry about it,
they talk about it, they talk about it,
just let them know we already got it,
just tell them we gonna work at it.. we good,
dont worry about it,

i think they know about you,
say they saw,
i think they know,
how could they know,
i think they know about you,
say they saw,
i think they know,
how could they know,

dont listen too, how could they know, what people say,
how could they know, they dont know, how could they
know,
about you and me, how could they know,

How could they know,
they dont know about us, they dont know about it,
How could they know,
they dont know about us, they dont know about it,

I thank you for the autographs, and the cheers over the
years,
you stood by me, even if in doubt, i think you want
some more,

i do often sing, im older know,
im acting know, plus i got my own movie know,
and an award, which they gave me, you should by,
you didnt play when in doubt, i think you want some
more,
i truley believe, if it wasnt for you, i dont know what i
would do,

i think they know about you,
say they saw,
i think they know,
how could they know,
i think they know about you,
say they saw,
i think they know,
how could they know,

dont listen too, how could they know, yeah yeah, what
people say,
how could they know, they dont know about, they dont
know about us babe, about you and me, how could they
know.
