[Chris Brown - Chorus]

Tonight I want me a wonder woman  
That can save my life  
wanna feel her power right now  
a real wonder woman  
come be my hero  
you can take your cape off  
you dont need that to save my heart  
you just need to take me, I know you can fly  
because I see you in the skies

[Tyga]

Damn she bad damn she bad  
heels with the matching bag  
mirror with the lips gloss  
lick her lips then she laugh  
Lady Gaga colored bag  
all her frame using that  
she could be your magazine, but she aint really into  
that  
oww damn she bad  
had to say it twice  
its gettin' late  
you should spend the night  
no rushing thangs  
got a whole lot of game  
and I'm stuck in my ways  
but just for you, I'll change  
Polaroid camera put this moment on your freezer  
5 in the mornin' yawning, kiss ya while you sleepin'  
half awake I can see you peekin'  
wake up baby cuz tonight

[Chris Brown - Chorus]

Tonight I want me a wonder woman  
That can save my life  
wanna feel her power right now  
a real wonder woman  
come be my hero  
you can take your cape off  
you dont need that to save my heart

you just need to take me, I know you can fly  
because I see you in the skies

[Tyga]

all shit aside  
I love the way you walk  
you got that indie glow  
give me some time to watch  
freeze freeze you put my heart into anesthesia  
I love you 'round the clock, wont stop till I get enough  
overtime overtime I put in for that valentine  
know you appreciate it baby lingerie (?)  
lets get naked, rip our clothes off  
Im the doctor you my nurse in a uniform
