You should be dancing!

Desperation feeds you inspiration
Celebration as you heat the station
Desolation in my spirit nation
Violation sparks the inflammation

One and one the attitude
I don't need this shit from you
Two and two are calling for
Identical the mainstream whore
Three and three it makes me sick
Bowling to the corporate prick
Four and four let's congregate
And listen while the master baits

Are you aware of the soul
Listen to me as you're losing control
Up in arms, rising up from the core
It's time for disband to arise
As it shatters the mold

Ejaculation in co-operation
Corporation gives me aggravation
Designation is no violation
Congregation of the restoration

One and one the attitude
I don't need this shit from you
Two and two are calling for
Identical the mainstream whore
Three and three it makes me sick
Bowling to the corporate prick
Four and four let's congregate
And listen while the master baits

Are you aware of the soul

Listen to me as you're losing control
Up in arms, rising up from the core
It's time for disband to arise
Are you aware of the soul

Listen to me as you're losing control
Up in arms, rising up from the core
It's time for disband to arise
As it shatters the mold

Hey, hey, hey, yeah
Hey, hey, hey, yeah
Hey, hey, hey, yeah

One and one the attitude
I don't need this shit from you
Two and two are calling for
Identical the mainstream whore
Three and three it makes me sick
Bowling to the corporate prick
Four and four let's congregate
And listen as the master baits

Are you aware of the soul
Listen to me as you're losing control
Up in arms, rising up from the core
It's time for disband to arise
Are you aware of the soul
Listen to me as you're losing control
Up in arms, rising up from the core
It's time for disband to arise
As it shatters the mold

Hey, hey, hey, yeah
Hey, hey, hey, yeah
Hey, hey, hey, yeah
