Don't be  
Uptight  
Loosen up your straps tonight  
Feel the  
Groove drive away  
Anything that has to do with  
Numbers to tight deadlines

Grab the  
Phone line  
And dial up a few of your friends  
It's the  
Right time  
To set it off again and again

People  
Get excited to  
Hit the After 5  
As the candy red fire dances  
Off the roof tonight  
It's time to get it started  
Let the party people break it off

In the  
Club line  
Tell the man you're VIP  
If he  
Gives you trouble  
Tell him you came down with me

(Chorus)  
(Breakdown, Instrumental)

Don't need no doctor  
Don't need no nurse to set you right  
Don't need no medicine  
To get you flying high as a kite  
(Chorus)
