And so we start another day together
You and I and a million miles between us
I train my moods to bloom like flowers unfolding
Instead of fluttering around and slowly drowning in the

Steel rain, steel rain, steel rain
It's taking over, it's taking over

The sky is open and the drones are pouring out
The day inhales in a contagious yawn
And there you smile
As though the sun were bouncing in the

Steel rain, steel rain, steel rain
It's taking over
Steel rain, steel rain, steel rain
It's taking over, it's taking over

Here in our little world
The tiny world spins for me
All is well in the titled world
But there's something falling down in the

Steel rain, steel rain, steel rain
It's taking over
Steel rain, steel rain, steel rain
It's taking over, it's taking over

It's taking over
It's taking over
It's taking over
It's taking over
It's taking over
