And we believed her then ooh  
And we believed her then ooh  
And we believed her then ooh  
And we believed her then ooh

And now outside  
You see the waves in her eyes  
And I  
I won't mind what you decided to swear by (2X)

And now outside  
I see your eyes meet the sky  
And I  
I don't mind what you decided to swear by

And now outside  
I see your eyes meet the sky  
And I  
I won't lie  
I kept you here tonight

And we believed her then ooh  
And we believed her then ooh  
And we believed her then ooh  
And we believed her then ooh
