"I Need You" (Chrississippi Music, Inc./Hat's Off Music, Inc. ASCAP)

We were alone and so in love Silence speaks a  
thousand words  
The two of us Sometimes it seems  
And now you're gone I miss your touch  
What happened to that bond That force field  
Between us? Between the two of us

Stories untold CHORUS x 2  
The night grows colder  
I miss you Let's talk it over  
Can't get you off my mind Let's compromise  
Not the love you left behind You can't get over  
Oh, let's leave it all behind us  
Chorus:  
I need you I need you, yeah  
You know it's true You, you know it's true  
I know I'm wrong Girl-  
You're right this time I need you  
Whoa... Need you  
Need you
