Open the blinds and let you in

You're the sunshine, you're not the wind

I held the rain a thousand years

That was the thing that caused my fears

I never thought it would be me

Fell off the cliff so easily

Laying in bed and I'm wide awake

Insomnia won't go away

Girl its 3 in the morning; 3 in the morning

Girl, all of my thoughts burn up in you

Girl you gave no warning; there was no warning

Girl; obliterating my point of view

I can't seem to get out my way

What if I asked for you to stay?

What if I held a hand again; would you forgive me for  
my sins?

All I can see is me and you

Sail down the sea of violet blue

Crimson the color of my heart

Take my hand and guide me through the dark

In the middle of the night

You flood my thoughts

My damn is broke I drift away

Trying not to move, waiting for the ball to drop

Trying not to think about the price to pay

I must've fell asleep thinking about you and me

The sun is shining in the sky signaling the break of day

Seems like anything is possible just as long as I'm  
asleep
