Nothin' better than being with you
You and me, yeah, that makes two
Chasin' all the clouds away
Just to spend another day with you,
Yeah, with you.

Got a basket full of flowers
That I'd like to give to you
The moon, it looks down on us
I said I hung it up for you,
Yeah, for you.

Look at how the time has flown
Summer was here, now winter's gone
All those misspent days and nights
That I spent away from you,
Away from you.

Maybe with the springtime rains,
I'll hear you calling out my name
Take me back to better days
Of going fishing and skipping rocks with you,
Yeah, with you.

Nothin' better than being with you,
You and me, yeah, that makes two
Chasing all the clouds away
Just to spend another day
With you, yeah, with you.
