Meet me on the corner  
Meet me in the pouring rain and we'll go dancing  
Forget about tomorrow  
Forget about the things they'll say

I like you but you're not supposed to know

Safe away from everything  
Safe away from everything  
Safe away from everything

Meet me on the corner  
The cops are running headlong in the dark  
Stupid little children  
They'll never know where we are

I like you but you're not supposed to know

No-one's gonna find us out  
No-one's gonna find us out  
No-one's gonna find us out
