Verse 1:

Her name is April and she works at Staples
She's got the face of an Angel but turns out she's
disables
We met when we were just just 16
But right away I knew she was the one for me

Chorus:

Now she's my December bride
My December Bride
My December Bride

Verse 2:

Well my life is over but I'll hold my composure
I'm gettin on with my life, I think I'll start with a new wife
That first date was so bitter sweet
Her name is Mandy and she means the world to me

Chorus:

Now she's my December bride
My December Bride
My December Bride

Verse 3:

I hear 3rd times a charm so again I'll move on
This time her name is Jill and she takes the pill
I like the way that she can cook
She really is the princess from a book

Chorus:

Now she's my December bride
My December Bride
My December Bride
