In the midst of rain
Heartaches and pain await for your hand
Like raging sea, temptations on me
And I just don't understand

Nobody's around, and the rains keep coming down
My smile's turned to frown
Doubt and fear, like nobody's near
Is this your perfect plan

I'll wait for you calm the storm
To tell the waves, "Be Still"

In the name of God
Bring your power in my life
Holy Spirit reign down
Prepare my heart and have your way

So many times I tried without you by my side
I finally found the truth that without you
I'm lost but I'm found in the shelter of you
I'm found in the shelter of you
