rock steady
steady with me

I don't want to change the world tonight
just tell me if it feels right darling
this moment can never repeat
will you rock steady, steady with me

I don't want to have to say goodnight
not before we see the sunlight darling
tomorrow can never be seen
will you rock steady, steady with me

I don't want to change the world tonight
just tell me if it feels right darling
don't fight it, you're already free
when you rock steady, steady with me
