I could stand here looking at you for a thousand years
But this gravity keeps holding me down
So I'll just keep watching you slide thru the summer sky
And if I could I'd fly to the heavens and meet you there
And I don't want to stop this spinning around
And it makes me smile while you mingle with the lights
offire flies

Hey I'm getting dizzy now
Falling to the ground
Hey I'm getting teary eyed

Mouth is open wide in wonder, in wonder
Shall we dance from opposite sides of the universe
That we shine all the glory behind our spins and turns
As we orbit our way thru the sky
Is it true you sang with the angels when earth was
made
The harmony is building cause the Lords can't be too
far away
Now I sing along with your song ever musically
Falling to the ground

Hey I'm getting dizzy now
Hey I'm getting teary eyed

Mouth is open wide in wonder
Hey you looking at me
Tell me what do you see from down there
Hey I'm getting dizzy now

Falling to the ground
Hey I'm getting dizzy now
Mouth is open wide in wonder, in wonder, in wonder
Falling to the ground
Hey I'm getting teary eyed

Hey
Hey
In wonder
In wonder
Hey

In wonder
Hey
This gravity keeps holding me down
