Never seen a love like this before
It's so amazing that you always leave me wanting more
Like the perfect addiction baby
You've got my attention yeah
You can have the best of me like no tomorrow
All I need is what you got to give me high
So let's touch the sky together baby, yeah
Get you so high, i'll drive you crazy, oh
Cause loving you is perfect
And baby this is so worth it
For us to explore the impossible
In the name of love
I can't explain the magic that we happen to obtain
And now you know we got that something that will
make me stay
Like the perfect addiction baby
See what i've been missing, yeah
You can have the best of me like no tomorrow
All I need is what you got to give me high
So let's touch the sky together baby, yeah
Get you so high, i'll drive you crazy, oh
Cause loving you is perfect
And baby this is so worth it
For us to explore the impossible
In the name of love
We'll find a way to fly away for days now, for days now
Just take my hands and don't be scared
We're floating in the air now, air now
Let's touch the sky together baby, yeah
Get you so high, i'll drive you crazy, oh
Cause loving you is perfect
And baby this is so worth it
For us to explore the impossible
In the name of love
So let's touch the sky together baby, yeah
Get you so high, i'll drive you crazy, oh
Cause loving you is perfect
And baby this is so worth it
For us to explore the impossible
In the name of love
