

Chris Ryan "Go"

Visit "[Go](#)" on MotoLyrics.com

Well I never thought I'd say this
But I'm so tired of Waiting, my dear
I push on just to see if I can make you smile this time

You know we're looking at the same sky tonite
And the stars resemble eyes that I once knew

Go - move along
I hope your life is better off without me
Go - carry on
Fine completely forget about me

Well I never thought it would be like this
But I'm running off of your last kiss my dear
I push on just to see if I can make you smile this time

You know we're looking at the same skies tonite
But the darkness reminds that there's nothing left
But broken words that were never kept so

Go - move along
I hope your life is better off without me
Go - carry on
Fine completely forget about me

So we could have gone without this test
But we both learned from our regrets and now
We just fade away

Go - move along
I hope your life is better off without me
Go - carry on
Fine completely forget about me
