Drive on into the dark and starry night  
To find a place where you'll be by my side  
Street lights reveal the inconsistent lines  
That formulate between you and I

This time I'm gonna try to make it right  
These are the words that echo in my weary mind

I just thought I'd let you in on this  
Your smile is something I can't forget  
It took me too long to see who's right in front of me  
I don't want to let you go like this  
Don't wanna miss another goodnight kiss  
It took me too long to see who's right in front of me

Cry girl cry, because you want him in your life  
You find you might be running out of time  
This night is crushing spirits left and right  
Due to the fact the moon is absent tonite

This time you're gonna try to make it right  
These are the words that echo in your weary mind

I just thought I'd let you in on this  
Your smile is something I can't forget  
It took me too long to see who's right in front of me  
I don't want to let you go like this  
Don't wanna miss another goodnight kiss  
It took me too long to see who's right in front of me

The truth is you mean more to me than I can say  
But you're my love and I live to take your breath away

I just thought I'd let you in on this  
Your smile is something I can't forget  
It took me too long to see who's right in front of me  
I don't want to let you go like this  
Don't wanna miss another goodnight kiss  
It took me too long to see who's right in front of me
