I'm looking out my window, trying to find my way
It's cold the wind is crying, I'm feeling down and gray
Just trying to find an answer to why you went away
Nothing seems to come to me, everything's a mess
today

Then I finally see you walking by, walking by
I wanted to be with you, catch my eye as you're walking
by
I wasn't aware you're going, stay awhile, don't say
goodbye
Cause I finally see you walking by, just walking by

It's darkness all around me, I can't see the light of day
It's weird the way I'm feeling, I wish you were here to
stay
I can't believe I lost you, I have so much left to say
I wish you knew I loved you before you went away

Then I finally see you walking by, walking by
I needed to be with you, catch my eye as you're walking
by
Oh tell me where you're going, stay awhile, don't say
goodbye
Cause I finally see you walking by, just walking by
Walking by x 11
Just walking by
Walking by x 3
Just walking by

Then I finally see you walking by, walking by
I wanted to be with you, but you took my eyes as you
walked right by
I wondered where you're going, kept telling you lies,
and say goodbye
Cause I finally see you walking by, walking by

Then I finally see you walking by, walking by
I wanted to be with you, catch my eye as you're walking
by
I wasn't aware you're going, stay awhile, don't say

goodbye
Cause I finally see you walking by, just walking by

Then I finally see you walking by, walking by
I wanted to be with you, catch my eye as you're walking
by
I wasn't aware you're going, stay awhile, don't say
goodbye
Cause I finally see you walking by, just walking by

Just walked by, walked by, walked right by
Just walked right, walked right, walked right by
