Time for me to step out of the water
Time for me to just loose my hold
And it's time for me to leave here all that I've hoped for
Could You take me where I need to go

I am waiting for Your love
I am reaching for Your touch
Lost without You, God, reach down
I need You now, I need You now

Time for me to step out of the water
Time for me to just loose my hold
And it's time for me to leave here all that I've hoped for
Could You take me where I need to go

I am waiting for Your love
I am reaching for Your touch
Lost without You, God, reach down
I need You now, I need You now

I am waiting for Your love
I am reaching for Your touch
Lost without You, God, reach down
I need You now, I need You now

I am waiting for Your love
And I am reaching for Your touch
Lost without You, God, reach down
I need You now, I need You now
