When I leave ya
i dont mean to be weak dear
under the weight of it
i know its awful sometimes

so lately
i've been coming home late love
in through the back door
feeling my way to you

so im holding back for you
case we slip
into different dreams yeh
and im hold back for you
so you know
that we're good enough
we're speeding
back to the wrong words
try to convince you
that im not quite gone

rpt chorus

wait on me
one last time
we'll be glorious
and i said (x3)

catch your breath and
catch your breath and
catch your breath and
breathe with

rpt chorus to end
