And the writings on the wall  
i can see between the cracks now  
you are everything i need  
but you're everything i dont need  
im not too sure but  
she said  
i gotta lot to learn now  
yeah and  
she said  
you gotta lot to learn

and you come around here  
with all your fancy dresses wonderful  
and you come around here  
stumbling before we hit the floor  
and you come around here

come and get it if you want it  
i can feel your heart so beautiful

and loud  
so loud for me (x2)

grab my clothes and taking off  
city lights they walk me home now  
did you ever see my face  
do you recognise me now  
im not too sure but  
she said  
you gotta lot ot learn now  
yeah and she said  
you gotta lot to learn

and you come around here  
with all your fancy dresses wonderful  
and you come around here  
breaking down before we hit the floor  
and you come around here

rpt chorus to end
