ooo la oooooooooo
Come a little closer baby
don't be afraid of me
i be gentle as i can be
when i stroke your hair
rub my fingers down your back
i want you to shiver as you rub me back

i wanna know
(can you feel me deep inside you)
stroking your life upon my tool
hereing you shout once more
(do me once do me twice)
i want to make you feel alright
love you all through the night
give my all to you

chours
i am giving you all my love making
it last always always
giving you all my love making
it last always always

now that you giving me whew!
everything that i as you for
let's make this moment last a little longer
what ever i need to do
willing to make sure you
never have a reason for leaving me

chours

(can you feel me deep inside you)
stroking your life upon my tool
can you feel me sugar
