There you are
Walking by like the perfect superstar
Caught me off guard
Didn't know what to say
Cause the last time you took my breath away
I said that if I ever
See you again
That I wouldn't let you pass me by
Because I want you to remember
This moment in time
Cause I'm gonna make you mine
Gonna make you mine

Is there any....

Is there anybody in love tonight?
Anybody wanna tell me when it feels just right?
And oh!
I think I found the one tonight!
Give me more than just a touch,
Cause I'm just too much in love!
I'm just too much,
I'm just too much in love!
I think I found the one tonight!
Give me more than just a touch,
Cause I'm just too much in love

Here I am all the man that you say you want
So tell me why you running game
Messin' with my heart
When you know that I can play that part

I said I said that if I ever
See you again
That I wouldn't let you pass me by
And I just want you to remember
This moment in time
Cause I'm gonna make you mine
Gonna make you mine

Is there any...

Is there anybody in love tonight?
Anybody wanna tell me when it feels just right?
And oh!
I think I found the one tonight!
Give me more than just a touch,
Cause I'm just too much in love!
I'm just too much,
I'm just too much in love!
I think I found the one tonight!
Give me more than just a touch,
Cause I'm just too much in love
I'm just too much in love!

I think I finally found the one
Said I think I finally found the one
I think I finally found the one
I think I finally finally found the one

Is there any...

Is there anybody in love tonight?
Anybody wanna tell me when it feels just right?
And oh!
I think I found the one tonight!
Give me more than just a touch,
Cause I'm just too much in love!
I'm just too much,
I'm just too much in love!
I think I found the one tonight!
Give me more than just a touch,
Cause I'm just too much in love
