You say you and her are really over  
Don't wanna make up just to fall apart again  
You say you want off this roller coaster  
Well, friend, let me ask you this

Can you stand to see her dancin' in somebody else's  
arms?  
Do you think that you'll go crazy every time you see her  
car?  
If you can't scroll by her number, not dial it on your  
phone  
Well that's all you need to know  
Don't leave her  
If you can't let her go

I ain't saying you ain't got good reason  
For wanting to take a match to everything  
But before you set your mind on leavin'  
You really oughta stop and think

Can you run across her picture and not wonder where  
she is?  
Can you catch the scent of her perfume and not think  
about her kiss?  
If you can't stop dreamin' 'bout her when you're  
sleepin' all alone  
Well that's all you need to know  
Don't leave her

Swallow your pride and turn this thing around  
Cause this here is a road  
You don't wanna go down

If you can't stand to see her dancin' in somebody else's  
arms  
Or you think that you'll go crazy every time you see her  
car  
If you can't scroll by her number and not dial it on your  
phone  
Well that's all you need to know  
Don't leave her

Don't leave her  
If you can't let her go  
If you can't let her go
