

## **Christ On Parade "Human Laboratory"**

I'm a dog locked in a cage, my body exposed to  
chemicals  
My body used to do the dirty work  
Cheap labor, but I have to eat  
I'm a pig in the navy, my skin blow-torched to test  
weapons  
At the mercy of someone who says they know it all  
Says they're acting on my behalf  
I'm a monkey under their eyes watching me for a  
reaction  
Getting me to perform their useless jobs  
Just changing ads on shopping carts  
Living under watchful eyes  
Waiting for me to putrify  
Stuck in their factories  
Caged in their laboratory
