Love and hate\*  
Imprisoned fate  
No soul to take

Win or lose  
No will to choose  
Dimensions fuse

I  
Stare thru unconscious eyes  
Create this world of mine  
Blind  
Is my whole life a lie  
I fear this future mind

Plug me in  
Let this begin  
I freeze within

Thinking fades  
Death delayed  
The womb remade

Dreamless sleep  
Into deep  
No longer me

Why  
Are all my lives a lie  
I can't believe my eyes  
Die  
Trying to win this fight  
To free my future mind
