"Ego Machine"

Consciousness . . .
A world appears
Booting into
System regress
Inside time
Outside time
The internal now
Is all it has

Seeking out
Forbidden states
Of consciousness
In nothingness
Self-model
Control achieved
Carbon-based
Ego machine

See it this way
Self Scattered
Recursive dreams
Digital screams

Simulate
Formulate
Reconstruct
And correlate

Multi-sense
Integrate
?I am this?
Experience
Self-model
Control achieved
Carbon-based
Ego machine
