So that's what they call a family
Mutter, Daughter, father, son
Guess Everything youheard about was true
So you ain't got any family who said you need one?
Ain you glad nobody waitin up for you?
When I dream on my own I alone
But I ain lonely for a dream the night s the only time of
day.
When the cites finally sleepin and my thoughtsbegan to
stray and I'm on the train that bound for Santa Fe, and
I'm free like the wind like I gonna live for eva it a
feeling time can never take away. Alls lneeds a few
more dollars and I outta here to staydreams come true
yes they do in Santa Fe.were does it say I gotta live and
die herewere does it say a guy can catch a breakwhy
should you always take wachta givenwhy you spend
your whole life liven trapped were there ain no future
even at seventeen(17)
Breakin your back for someone else sake if the life don
seem to suicha how out a change of seenfar from the
lousy headlines and the deadlines in between.
Santa Fe are you there? Do you swear you wont for get
me? If I found you would you let me come and stay? I
ain getting any younger and before my dyin day I want
space not just air let them laugh in my face I don care
say the place and I l be there.
So that what they call a familyain you glad you ain that
way ain you glad you gotta dream called Santa Fe?
