I have never been this close,
To spinning round in circles
So u know!

Can't find my way back home,
Been lost for miles,
I feel you breath me in.....

Maybe I'll just stop a little while,
So I
Can Have the strength to walk another mile.....

It's like falling down a hill, a thousand times,
Or knowing you can never reach sky.....

That's how it goes,
Anytime you are around me.....

Flying like a bird across the sky
So high my feet barely touch the ground
I can't let go
Anytime your around me.....

You make me feel so high,
Everytime I stand right next to you,

The moments tick on by,
As I slowly fall back to my paradise
